EXPERIENCE

SMARTSOFT ASIA   **Bangkok, Thailand**
Lead Mobile Developer   **Apr 2023 - Present**
- Mentored interns and juniors, guiding them in writing Flutter and iOS native applications
- Led mobile app development projects and contributed to architecture and design decisions
- Collaborating with UX/UI Designer and Backend team to deliver a seamless, user-centered product that meets business goals and technical requirements.

Senior iOS Developer | Senior Flutter Developer   **Oct 2020 - Mar 2023**
- Designed and developed iOS & Android apps using Flutter and native iOS apps with Swift
- Analyzed and improved existing app features to enhance performance

iOS Developer   **Oct 2019 - Sep 2020**
- Designed and developed native iOS apps with Swift using RxSwift
- Conducted performance analysis and improvement of existing applications

Flutter App (Bloc, GetX)
- **OC Trade** – A copper price booking app for Oriental Copper, simplifying and automating the booking process for convenience. Rewritten from native to Flutter for enhanced flexibility and cross-platform benefits
- **Easy Health** – A food delivery app for Easy Health restaurant, specializing in healthy meals with a feature to track the nutritional intake of each dish and subscription for meal plan (Stripe payment SDK)
- **Foamtec** – A production line tracking app that allows staff to log their work progress at each station by scanning to start, pause, or complete tasks
- **Mewing by Mike Mew** – Guided self-practice app for Mewing exercises with input from Dr. Mike Mew, the pioneer of Mewing techniques, subscription options on the Apple App Store and Google Play Store
- **El Mercado** – A food delivery app for El Mercado restaurant with QR code scanning for dine-in ordering (Stripe payment SDK)
- **El Mercado Staff** – An internal app for staff, providing product catalog, order management, table service features, and incident reporting
- **JUST** – A platform for listing second-hand cars, booking vehicle inspections
- **VCTPDS** – A management tool for Volvo Thailand's central warehouse, featuring car inventory management, document scanning, inspections, and damage reporting
- **Sabuy Wash** – A location-based app to find and pay for nearby laundry machines at Sabuy Wash laundromats

iOS App (RxSwift, MVVM)
- **SBITO** – A reward redemption and account management app for SBI Thai Online (SBITO) customers
- **evRiderz** & **evDriverz**– A dual-purpose app for food delivery and transportation services. (2C2P payment SDK)
- **Rabbit Rewards** – A loyalty app for redeeming rewards and subscription for trips (using Omise payment SDK)
- **SCG Family** – Implements cash card registration and access to related SCG Family benefits and information
- **PERFUMIST** – A personalized perfume advisor app with features for exploring fragrance notes and getting recommendations tailored to user preferences
